Restrictions

None.

Biographical Sketch

Donald F. Wallbaum attended Eastern Kentucky University and graduated in 1975 with a degree in English. While he was a student he worked as a *Milestone* photographer and was also the photographer for the *Richmond Register* from March to May, 1982.

Scope and Content Note

The Wallbaum Negatives include many images of each event photographed. Typically only one or two images appear in the newspaper, but the photographer normally took multiple photographs. Sometimes as many as 11 rolls of film were used, as in the World's Fair story. This collection allows the user to see the photos that the paper didn't print. The main drawback to the collection is of course the very limited time span, but because of the small staff nearly every story printed during those three months is included in the collection.

Some images weren't identified or dated, so the date assigned to them was the date that the story appeared in the Richmond Register. Even after scanning the newspaper for the three months in question there were a few stories that weren't found in the paper. These have been described without a date in the last folder.

Donor Information

Unknown (2006-018).

Box List or folder List

- f.01 Mar 23, 1982 Model Science Fair
 Mar 23, 1982 Col. Hugh Gracey
